## What does the QI Coaching Pilot Program involve?

- Interested hospitalists will be paired with an experienced volunteer coach with relevant QI expertise.
- QI coach and mentee pairs will work out the details of their engagement by adapting a general model to their specific needs.
- The program will provide the necessary documents to help mentees plan and implement their projects; QI coaches can help fill them out as needed.
- This program is at no cost to participants.

## How do I get involved in the QI Coaching Pilot Program?

Complete the survey to be contacted about the program\*:  
<https://www.surveymonkey.com/r/qicoachingpilot>

*\*Includes those interested in being a QI coach.*
